

BUSINESS ADMINISTRATION (BUAD)

BUAD 000 - Research Experience (0 Credits)

Open to qualified students by permission of the department. Supervised corporate-sponsored research experience developed in consultation with the department.

BUAD 105 - Perspectives on Organizations in Society (3 Credits)

The evolution of economic systems from political, sociological, and cultural perspectives will be examined in order to better understand the interactive nature of business, governmental, and societal systems. This course introduces the conceptual foundations necessary to make informed, well-reasoned analyses of the current issues involving an array of organizations from the private, public, and not-for-profit sectors of the economy. Not open to students with a declared Business major.

BUAD 350 - Business Communication (3 Credits)

Prerequisite: DSCI 352, MIST 201, and business administration major or permission of department chair. In this course students study Business Communication as a strategic process. The emphasis of the course is on the practical application of written and oral principles of business communication, including audience management, information control, and mastery of language. Additional areas of study include discourse analysis, oral and multimedia presentation techniques and critiques, intra-and inter-cultural differences in communication, impromptu speaking, and structured and planned briefings.

BUAD 364 - Business Ethics (3 Credits)

A study of ethical conduct in management and the elements involved. The course will use a series of applied case studies (illustrating both positive and negative models) to provide an understanding of how to recognize a moral dilemma, evaluate the implications of the proposed actions and develop a response. The student should leave with an understanding of ethics and social responsibility as they relate to management.

BUAD 457 - Practicum in Entrepreneurship (3 Credits)

Co-requisite: MGMT 351 OR Business Major with Senior Status. This hands-on course introduces the key elements and tools used by entrepreneurs as they develop, design and test the delivery of a product or service in the market place. Class activities and case studies guide students through the startup process.
