

# COMPUTER SCIENCE

## Degree: B.S., Computer Science

Department of Computer Science (<https://cas.umw.edu/computerscience/>)

The Bachelor of Science degree in Computer Science provides the kind of dynamic, interactive work environment few fields can match. Software developers and analysts invariably work in teams to tackle cutting-edge projects. We join forces with scientists, doctors, military commanders, social psychologists, and others to produce solutions that are bigger than the sum of their parts. We enjoy the satisfaction of working with our peers to make a common vision become reality.

Computer software is probably the most malleable medium invented for human artistry. Unlike the gadgets of the industrial revolution, which were hardwired to a single purpose, computer software essentially mimics the fluidity of the human mind, making it extensible in any direction the author sees fit. Because of this, in Computer Science, we don't just study what "is," but we define what is. Our goal is to invent, create, and solve problems in exciting new ways.

The major is tailor-made for a challenging and practical course of study and paves the way for a dynamic career path and advanced study in the computing and related fields. We also offer a minor in Computer Science for students majoring in other disciplines, and offer courses in support of the interdisciplinary Data Science minor and the Cybersecurity minor. Students have opportunities for individual study, undergraduate research, and internships at technical firms, government offices, or software development agencies.

Students who are considering a career in IT or project management or who are interested in pursuing an MBA should pursue the Computer Science major and a minor in Business Administration.

Students who are interested in a career in Geospatial Systems should consider completing the requirements for Computer Science major and the Geographic Information Science certificate.

## Major Requirements

Code	Title	Credits
CPSC 220	Computer Programming and Problem Solving	4
CPSC 225	Software Development Tools	1
CPSC 240	Object-oriented Analysis and Design	4
CPSC 302	Computer Ethics	3
CPSC 305	Computer Systems and Architecture	4
CPSC 326	Theoretical Foundations of Computing	4
CPSC 340	Data Structures and Algorithms	4
CPSC 350	Applications of Databases	4
CPSC 405	Operating Systems and Systems Programming	4
CPSC 430	Software Engineering	4
Select one of the following:		4-6
CPSC 284	Applied Discrete Mathematics	3
MATH 201 & MATH 300	Introduction to Discrete Mathematics and Linear Algebra	

Select one course, minimum 3 credits, in CPSC numbered 400 or higher that was not used to satisfy any of the preceding requirements<sup>1</sup>

Select one course, minimum 3 credits, in CPSC or MATH numbered 300 or higher<sup>2</sup>

**Total Credits** 46-48

<sup>1</sup> Except CPSC 499 Internship . CPSC 491 Individual Study in Computer Science fulfills this requirement if said course is at least three credits.

<sup>2</sup> Including CPSC 391 Special Projects in Computer Science, CPSC 491 Individual Study in Computer Science, or CPSC 499 Internship provided the course is at least 3 credits.

A maximum of 3 credits of CPSC 499 Internship can be counted toward the Computer Science major.

## General Education Requirements

The general education requirements for Bachelor of Arts/Bachelor of Science degrees (<https://catalog.umw.edu/undergraduate/general-education/requirements-bachelor-arts-bachelor-science-degrees/>) apply to all students who are seeking to earn an undergraduate B.A., B.S. or B.S.Ed. degree.

Students seeking a Bachelor of Liberal Studies degree have a separate set of BLS general education requirements (<https://catalog.umw.edu/undergraduate/general-education/requirements-bachelor-liberal-studies-degrees/>).

## Electives

Elective courses are those that are not needed to fulfill a general education requirement or major program requirement but are chosen by the student to complete the 120 credits required for graduation with a B.A./B.S./B.S.Ed. degree or the BLS degree. These courses may be taken graded or pass/fail (or S/U in the case of physical education and 100-level dance). No student in a regular B.A./B.S./B.S.Ed. program may count more than 60 credits in a single discipline toward the 120 credits required for graduation.

**Total Credits Required for the Degree:** 120 credits

## Computer Science Department

Karen M. Anewalt, Chair

### Faculty

#### Professors

Karen M. Anewalt  
Stephen C. Davies  
Jennifer A. Polack

#### Associate Professors

Ian Finlayson  
Andrew M. Marshall  
Jessica Zeitz Self  
Xin-Wen Wu

#### Assistant Professors

Prashant Chandrasekar  
Veena Ravishankar
