

GEOGRAPHY

Degree: B.A., Geography

Department of Geography (<https://cas.umw.edu/geography/>)

The Geography Department hosts two majors and a certificate in Geographic Information Science. Majors in Geography and in Geospatial Analysis both lead to the Bachelor of Arts degree in Geography.

Geography is the study of the interaction between people and their environments, both natural and human. Geographers examine the places and regions resulting from such interaction and analyze the spatial characteristics of all manner of cultural, economic, political, and physical processes and relationships. Students in the Geography major select one of three areas for specialization:

Society and Politics

A focus on the geographies of people and power. Topics include planning, cities, race & place, globalization, and migration.

Culture

A focus on the geographies of how people live and make places meaningful. Topics include Latin America, the Middle East, sacred spaces, and development studies.

Environment

A focus on the geographies of natural and human environmental processes. Topics include biodiversity, natural hazards, climate change, and urban sustainability.

Through classroom and laboratory experience, field work, and community involvement, students gain the knowledge and skills required to appreciate the diversity of people and places, the integration and interrelationships of places, and the spatial processes that affect modern society.

Geography majors acquire spatial thinking skills by studying research methods appropriate for their area of specialization. These include: geographic information systems (GIS), cartography, remote sensing, field methods, quantitative, and qualitative methods. Majors are also encouraged to engage in internships, study abroad programs, and undergraduate research.

Facilities for geographic studies at Mary Washington include well-equipped laboratories for the study and practice of physical geography, GIS, cartography, and remote sensing. The department hosts a chapter of Gamma Theta Upsilon, the International Geography Honorary Society.

During the senior year qualified students may pursue Honors in Geography by completing an independent research project and writing and defending a thesis.

Geography majors have pursued a wide variety of careers. These jobs include working for GIS and mapping companies, consulting and engineering firms, as well as numerous non-profit and government organizations. Majoring in geography prepares graduates for work in many different areas, as students have experience studying both the human and physical dimensions of the world. Many graduates also choose to continue their education in graduate schools, studying everything from meteorology to political geography.

Major Requirements

A minimum of 35-37 credits in Geography and Geographic Information Science.

Code	Title	Credits
Core Courses		11
GEOG 102	Introduction to Human Geography	
GEOG 111	Landform Processes	
GEOG 250	Introduction to Geographic Information Systems and Cartography	
or GISC 200	Introduction to GIS	
Methods Requirement		3-4
GEOG 352	Quantitative Methods in Geography	
GEOG 363	Qualitative Methods in Geography	
GEOG 365	Field Methods	
GISC 340	Remote Sensing and Air Photo Interpretation	
GISC 351	Spatial Analysis	
GISC 355	Mobile Geographic Information Systems and Global Positioning Systems	
Breadth Requirement		9-10
Select one course from each of the areas of specialization, at least one being at 300- or 400-level.		
Specialization Requirement		9
Take 3 additional courses from one of the areas of specialization, two of which are at 300- or 400-level.		
Areas of Specialization		
A. Society & Politics		
GEOG 231	Introduction to Planning	
GEOG 236	Globalization and Local Development	
GEOG 237	Cities	
GEOG 331	Race and Place in America	
GEOG 332	Migration Politics in a Globalizing World	
GEOG 333	Planning Seminar	
GEOG 337	The Nature of Cities ¹	
GEOG 338	Geopolitics	
B. Culture		
GEOG 101	World Regional Geography	
GEOG 221A	Geography of Eastern North America	
GEOG 222A	Geography of Western North America	
GEOG 301A	Geography of Latin America and the Caribbean	
GEOG 304A	Geography of the Middle East	
GEOG 335	Sacred Spaces	
GEOG 339A	Development Studies	
GEOG 361	Grassroots Development in Guatemala	
C. Environment		
GEOG 110	Introduction to Weather and Climate	
GEOG 240	Hazards and Resilience	
GEOG 241	Biogeography	
GEOG 245	Environment and Society	
GEOG 325	Dynamic Climatology	
GEOG 326	Glacial Processes and Landscapes	
GEOG 327	Climate Change	
GEOG 337	The Nature of Cities ¹	

For each area of specialization, 3 credits of one of the following may be included.

GEOG 360	Geographic Study Abroad	
GEOG 410	Advanced Topics in Geography	
GEOG 485	Readings in Geography	
GEOG 491A	Individual Study in Geography	
GEOG 494	Community Engaged Study in Geography	
Senior Seminar		3
GEOG 490	Senior Seminar in Geography	
Total Credits		35-37

Ping Yin

¹ GEOG 337 may be used in either Society & Politics or Environment, not both.

Certificate in Geographic Information Science can be found by using this link (<https://catalog.umw.edu/undergraduate/minors/geographic-information-science-certificate/>).

General Education Requirements

The general education requirements for Bachelor of Arts/Bachelor of Science degrees (<https://catalog.umw.edu/undergraduate/general-education/requirements-bachelor-arts-bachelor-science-degrees/>) apply to all students who are seeking to earn an undergraduate B.A., B.S. or B.S.Ed. degree.

Students seeking a Bachelor of Liberal Studies degree have a separate set of BLS general education requirements (<https://catalog.umw.edu/undergraduate/general-education/requirements-bachelor-liberal-studies-degrees/>).

Electives

Elective courses are those that are not needed to fulfill a general education requirement or major program requirement but are chosen by the student to complete the 120 credits required for graduation with a B.A./B.S./B.S.Ed. degree or the BLS degree. These courses may be taken graded or pass/fail (or S/U in the case of physical education and 100-level dance). No student in a regular B.A./B.S./B.S.Ed. program may count more than 60 credits in a single discipline toward the 120 credits required for graduation.

Total Credits Required for the Degree: 120 credits
